A MEMO TO THE SORA COMMUNITY

AUGUST 2023

This document accompanies the invoice sent to SORA for the services provided by Ceres Blockchain Solutions.

This memo will provide a description of the products, and the total amount of hours presented in invoice served by Ceres Blockchain Solutions to the SORA Community.

The services performed include the design, development, testing, and maintenance of the following products: Ceres Tools Website, Ceres Tools Mobile Apps (iOS and Android) and Ceres Polkaswap Telegram Bot.
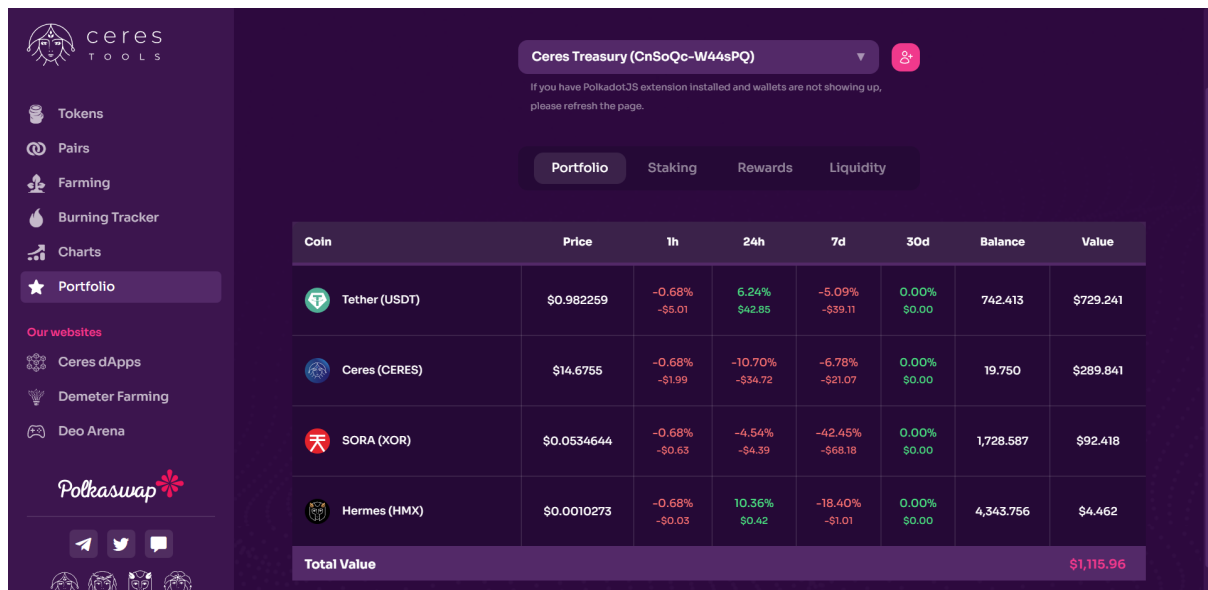

1   Ceres Tools Website – 38 hrs

Ceres Tools (https://tools.cerestoken.io) is a platform for tracking data from Polkaswap Decentralized Exchange (https://polkaswap.io).
Platform consists of six sections: **Tokens, Pairs, Farming, Burning Tracker**, **Portfolio** and **Charts**.

1.1   Portfolio feature

A portfolio feature allows users to connect their wallet and track wallet's holdings, staking, rewards and liquidity. Also users can monitor the movement of their portfolio in the previous 1h, 24h, 7d and 30d. This feature is available also in Ceres Tools mobile apps. Users are able to add and save accounts in the Portfolio section. Until now, users had to enter an address every time while now they are able to save multiple addresses in their Portfolio.

1.2   VAL Burning Tracker

VAL Burning Tracker tracks only regular VAL burns at the moment. An upgrade, which will include TBC VAL burns as well, is being implemented.
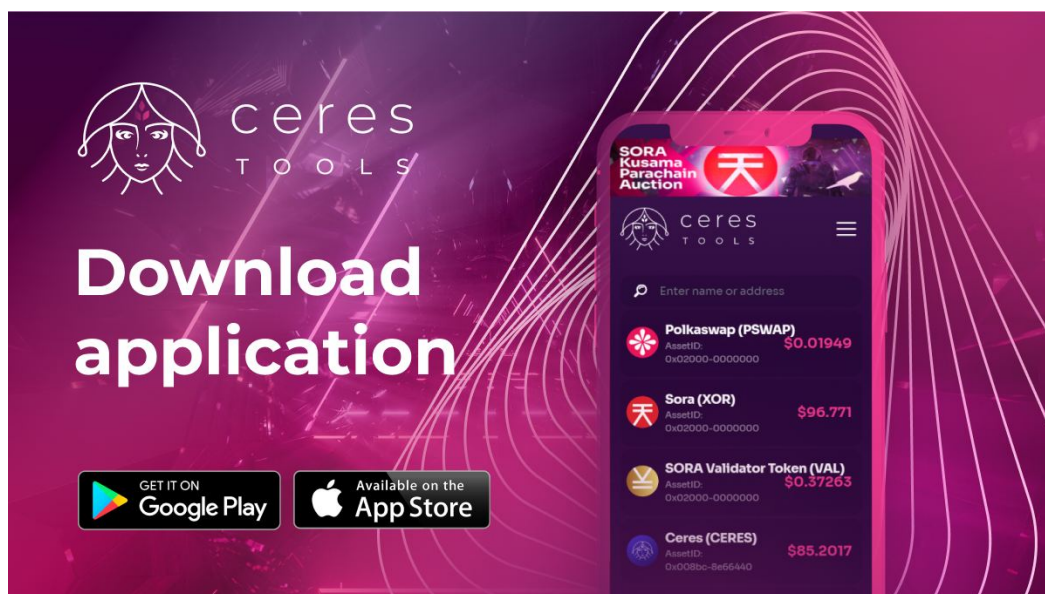

2 Ceres Tools Mobile Apps – 20 hrs

Ceres Tools Mobile App is a Ceres Tools Website version as a mobile app. It is available for both Android and iOS. From this release, users are able to add and save accounts in the Portfolio section. Until now, users had to enter an address every time but now they are able to save multiple addresses in their Portfolio.
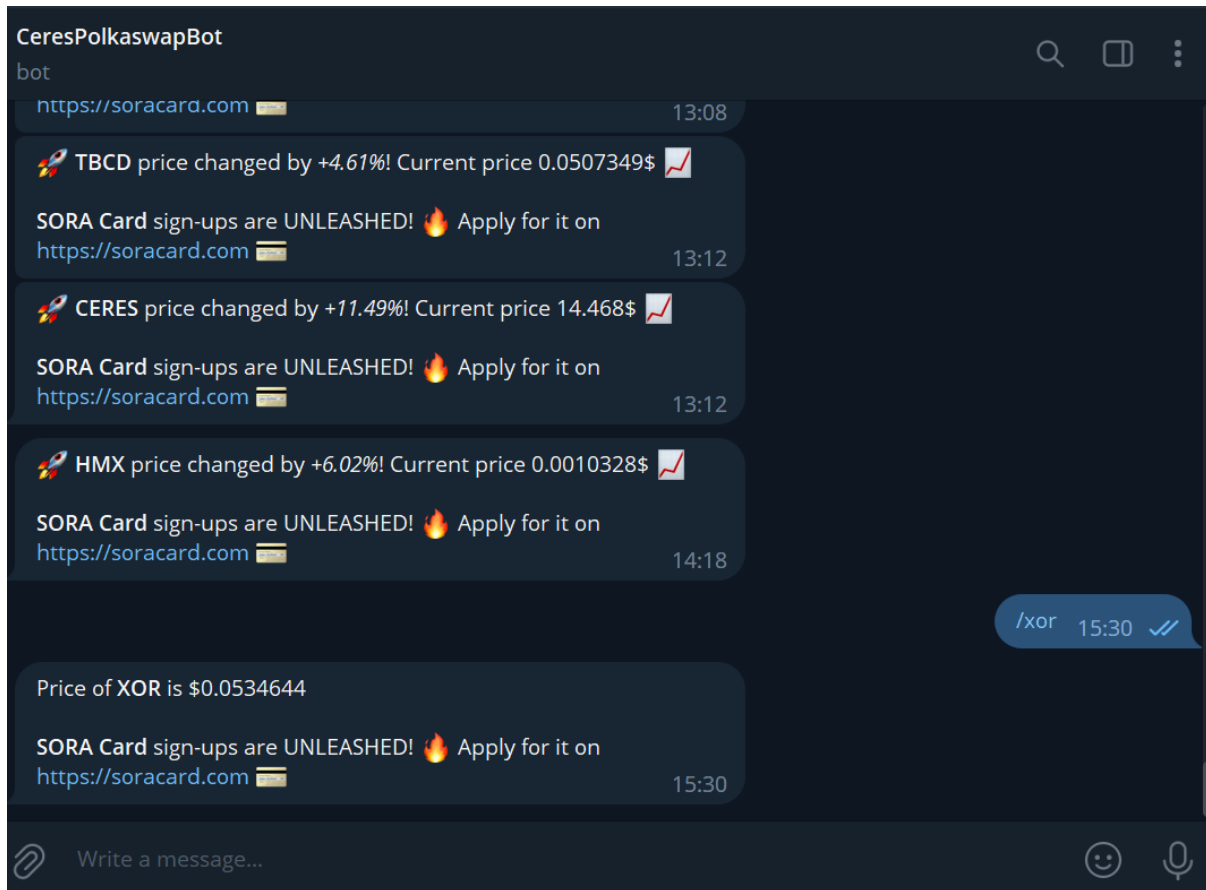

Ceres Tools Android App –
https://play.google.com/store/apps/details?id=io.cerestoken.tools
Ceres Tools iOS App – https://apps.apple.com/gb/app/ceres-tools/id1590032285

3 Ceres Polkaswap Telegram Bot – 16 hrs

Ceres Polkaswap Telegram bot has been updated to accept commands like it used to in the form of /tokenSymbol in the old version, in addition to the already existing new features of tracking the token prices changes. Feel free to check – https://t.me/ceres_polkaswap_bot.

4 Maintenance, issues and bug fixing – 20 hrs
