CERES BLOCKCHAIN SOLUTIONS

A MEMO TO THE SORA COMMUNITY

OCTOBER 2023

This document accompanies the invoice sent to SORA for the services provided by Ceres Blockchain Solutions.

This memo will provide a description of the products, and the total amount of hours presented in invoice served by Ceres Blockchain Solutions to the SORA Community.

The services performed include the design, development, testing, and maintenance of the following products: Ceres Tools Website, Ceres Tools Mobile Apps (iOS and Android).
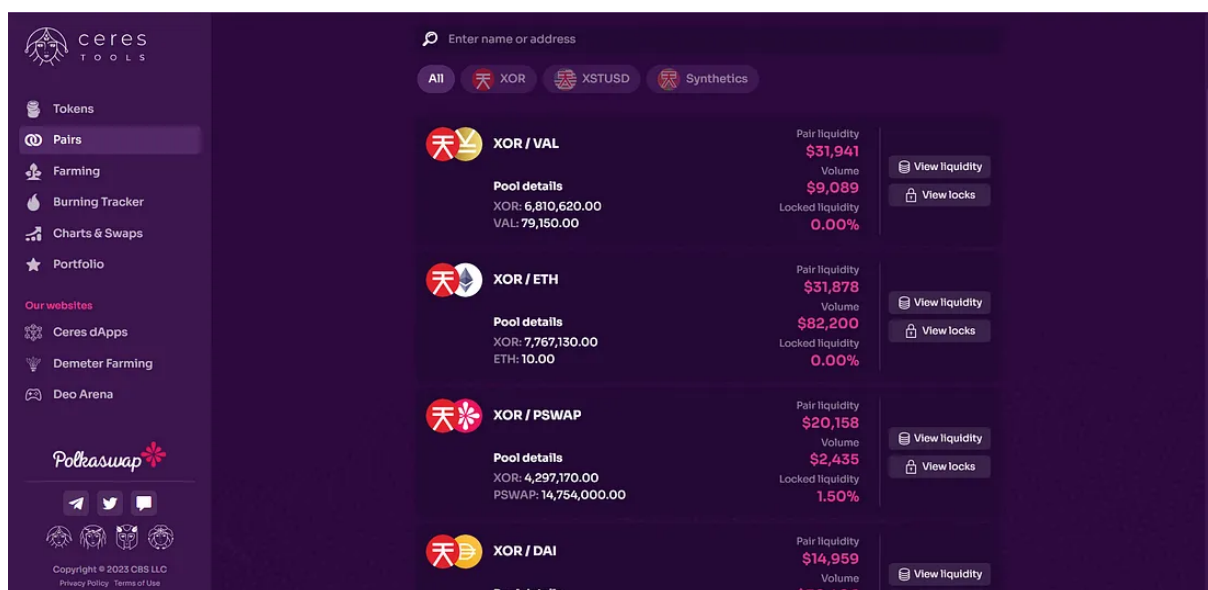

1   Ceres Tools Website – 148 hrs

Ceres Tools (https://tools.cerestoken.io) is a platform for tracking data from Polkaswap Decentralized Exchange (https://polkaswap.io).
Platform consists of six sections: **Tokens, Pairs, Farming, Burning Tracker**, **Portfolio** and **Charts & Swaps**.
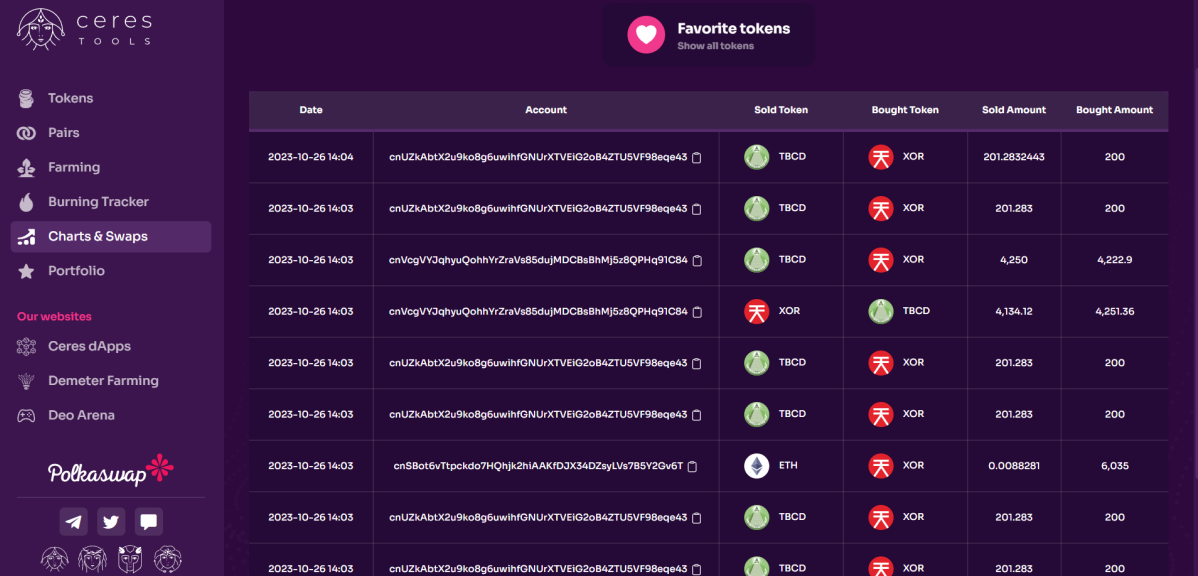

1.1   Pairs

Pairs section shows liquidity, 24hr volume and pool details for each pair as well as total liquidity and total 24hr volume on Polkaswap. Additionally, details about liquidity locks are also provided in this section. From this release, users can check Deposit/Withdraw liquidity events for each pair by clicking on View liquidity button.

1.2   Charts & Swaps

In the Charts part of the section, users can track price movement of tokens listed on Polkaswap as well as doing a Technical Analysis using various indicators. In the Swaps part of the section, users are able to track swaps (buys and sells) for each token on Ceres Tools.

From this release, new swaps are being added automatically in real-time, users do not need to refresh the page; users are able to click on the account which made the swap and it will redirect them to the Portfolio page of that account; users can check swaps of their favorite tokens only (choose it from Show all tokens menu above the chart).

1.3   Portfolio

A portfolio feature allows users to connect their wallet and track wallet's holdings, staking, rewards, liquidity and swaps. Also users can monitor the movement of their portfolio in the previous 1h, 24h, 7d and 30d. From this release, an address can be added to Portfolio without naming and saving it, just to check it and after the user changes page, it will be deleted; users can check swaps of the account now as well and search portfolio addresses by name.

| Coin	Price	1h	24h	7d	30d	Balance	Value
SORA (XOR)	$0.0023378	-2.64% -$9.22	-24.16% -$108.27	-67.14% -$694.21	-89.43% -$2,874.18	145,347.113	$339.792

Ether (ETH)	$1,344.2	1.63% $0.99	-5.10% -$3.32	2.27% $1.37	-2.40% -$1.52	0.046	$61.785
Polkaswap (PSWAP)	$0.0006789	-0.50% -$0.08	-11.28% -$2.10	-9.62% -$1.76	10.86% $1.61	24,283.720	$16.486
SORA Synthetics (XST)	$0.0000074	-5.13% -$0.41	-37.29% -$4.55	-80.42% -$31.45	-97.43% -$290.46	1,034,401.510	$7.655
Hermes (HMX)	$0.0011223	0.17% $0.01	7.28% $0.48	-23.83% -$2.22	8.64% $0.56	6,316.590	$7.089

2   Ceres Tools Mobile Apps – 26 hrs

Ceres Tools Mobile App is a Ceres Tools Website version as a mobile app. It is available for both Android and iOS. From this release, users can enjoy all the functionalities that have been added to the Ceres Tools website.
Ceres Tools Android App –
https://play.google.com/store/apps/details?id=io.cerestoken.tools
Ceres Tools iOS App –
https://apps.apple.com/gb/app/ceres-tools/id1590032285

3 Maintenance, issues and bug fixing – 44 hrs

The most important progress that should be highlighted here is that the portfolio of an account is obtained in a second, regardless of how many tokens it owns, instead of almost a minute or two, as it used to be if the account has a lot of tokens in the portfolio.
